

## Exemplifying Qualities and Dispositions of GIM.

Leveraging my tenure at GIM, I have embodied the institute's motto "Learning Never Stops" through relentless academic pursuit, innovative project implementations and proactive engagement in co-curricular activities.

My work on an "AI-Based" chatbot for admission inquiries and my comprehensive research under the mentorship of Dr. Anup Kumar Maurya on cutting-edge Diffusion Models exemplify the creation and application of emerging technologies in the field of AI and Deep learning.

My finalist position in the BITATHON competition and receiving a PPO from HDFC Bank for my SIP performance demonstrate agility and leadership in responding to real-world business challenges.

These accomplishments, coupled with my dedication to continuous learning through various advanced certifications, position me at the forefront of embracing and leading best business practices resonating deeply with GIM's ethos of creating knowledgeable, responsible, agile and leading professionals.
